

Tray Vibration Kit

The tray vibrators used on the Natural Seeder and the Drum Seeder Tray Vibration Kit are the same unit but assembled differently, because they operate opposite ways up depending on the application.

We have found a case where a vibrator was incorrectly assembled on a DS Vibrating Tray Kit, making it so that the Vibrator will not start.

The correct assembly is shown below:

VIBRATOR FITTED TO DRUMSEEDER VIBRATING TRAY KIT

(VIEWED FROM UNDERNEATH)
